- Creation of tools and malware
- Teaching classes on Cybersecurity
- Making videos for YouTube about technology
- Creating cheats for online games
- Conducting reverse engineering on programs to understand their functionalities
- Playing logical reasoning games

RESUME

With 3 years of experience in cybersecurity, I highlight my role as a specialized Pentest analyst. I have developed strong competencies in security testing, standing out in the identification and mitigation of vulnerabilities. I am actively seeking opportunities within companies that prioritize cybersecurity, aiming to apply my expertise in Pentesting to contribute to the effective growth and protection of digital assets.
